

Product Information

AVENO Circulating Oil CL 150

0002-000272

Description

AVENO Circulating Oil CL 150 is produced on a basis of high-quality mineral oils and proven additives. Thanks to its special combination of active ingredients, it is suitable for use as a simple machine lubricant where no EP-additive oils are required.

Instructions for use

AVENO Circulating Oil CL 150 has very good properties as a lubricant. Therefore AVENO Circulating Oil CL 150 can preferably be used for industrial gears and circulation systems of low and medium loads, where lubricants are required in accordance with DIN 51517-2.

Quality classification

Specification

- DIN 51517-2 (CL)

Properties

- A good wear protection
- Prevents foam formation
- Good water separation characteristics
- A mild additive and is therefore particularly suitable for old machines
- Inhibits rust and corrosion and protects against ferrous metal corrosion
